Our Story

Hi, I am Colleen Pintozzi, President of American Book Company. Our family business started with a dream and a relentless desire to help students achieve. On February 21, 1996, ABC received its first order to help students pass high stakes tests in South Carolina. That one order launched our dreams to help struggling students achieve success. My husband, Dr. Frank Pintozzi, and I, along with our son, Devin Pintozzi, started American Book Company from the family garage.

Applying our combined 55 years of teaching experience, along with a talented team of employees passionate about education, we continue our quest to help students and educators across the United States excel on state and national exams.

We look forward to continuing to work and collaborate with you in helping your students achieve guaranteed academic growth and success.

Sincerely,

Founder, American Book Company

The ABC Team

What's Included With Your Order

Simulated Assessments Matched to State Testing Standards!

Included in every ABC workbook is our pretest and posttest where question type and number match state blueprints exactly. Each question is clearly labeled with the DOK level and corresponding standard for easy concept identification. These tests offer opportunities for students to become familiar with the question format and answer requirements.

Teacher's Guides!

The ABC teacher guide is not only your answer key for all tests and quizzes, but also offers assessments not included in the student workbook. Even better, it's included **FREE** with **every** workbook purchase.

Targeted Instruction Made Easy!

After students take the pretest included in our workbooks, you can reference the Chart of Standards to quickly identify learning gaps. The corresponding chapter is listed where you can find even more content and practice!

eBooks and Seamless Online Assessments with Every Order!

Standard								
Chapter Pretest Questions Post Test Question								
BIO1.LS1.1 : Compare and contrast existing models, identify patterns, and use structural and functional evidence to analyze the characteristics of life. Engage in argument about the designation of viruses as non-living based on these characteristics.								
2	1, 3, 4, 7, 13, 48, 52, 71	8,36						

Score Improvement Guarantee

Our 100% money back guarantee provides your score improvements -risk free- and is valid for the purchase year under the following conditions:

- A. The students worked through the workbooks/CourseWave completely on a 1:1 basis.
- B. The students did not see score improvement on the state standardized tests over the previous year's score.
- C. Students did not use American Book Company workbooks and eBooks in the classroom in previous year.

Percentages

Standard(s) covered: 7.RP.3, 7.NS.1, 7.EE.2, 7.EE.3

5.1 Changing Percents to Decimals and Decimals to Percents (DOK 1)

To change a **percent** to a **decimal**, move the **decimal** point two places to the left, and drop the **percent** sign. If there is no decimal point shown, it is understood to be after the number and before the percent sign. Sometimes you will need to add a "0". (See 8% below.)

Example 1: 23% = 0.23 8% = 0.08 100% = 1 409% = 4.09

(decimal point)

Change the following percents to decimal numbers. (DOK 1)

1. 35% 5. 100% 9. 70% 13. 644% 17. 22%

Mathematics

Daniel is choosing between carpet cleaning companies for his home. Clean Best charges \$40 flat rate, then \$2 per 100 square feet of carpet. Carpet Pro charges \$25 flat rate, then \$3.50 per 100 square feet of carpet.

Let x = amount of carpet cleaned, per 100 square feet

Let y = total cost of carpet cleaning

Part A

Write the equation for cost for each company, using the items below. Choose from the numbers, symbols and variables in the box to form the equation.

									- 1
x	У	3.50	25	40	2	+	=]	
Clean I	Best								
Carpet	Pro]

■ Learning Programs

ABC's ACT® Learning programs prepare students to take the ACT® college entrance exam. Each resource is designed to reinforce the skills that students need for the exam as well as for college and career readiness.

THE LINE GRAPH

A **line graph** is another type of graph commonly found on the ACT. The line graph is used to show trends in data. A **trend** is an expression of how things change, usually as related to time. Figure 2.4 shows the general format of a line graph.

Line graph questions are usually about the trends shown, rather than a quantitative assessment of specific numerical data.

As with bar graphs, you should examine the axes to determine the variables being tested, as well as the range and scale of the axes. Note that line graphs have a scale on *both* axes; the scale on the *x*-axis may well be different from that shown on the *y*-axis. In addition, you should know these important facts:

Figure 2.4

1. Know how to analyze the trendline. A trendline is the line that connects all the plotted data. When the value of the variable plotted on the y-axis is increasing, it is called an increasing trend. When the value of the variable plotted on the y-axis is decreasing, it is called a decreasing trend. When the value of the variable plotted on the y-axis is not changing, there is no trend; the system is at equilibrium (a state of zero net change). In such a case, the variables may probably be unrelated.

Data-Driven Instruction for your Classroom, covering 100% of Kentucky Academic Standards

Spend your time teaching-not creating and grading exams. Our experts have meticulously mapped out chapter, formative, and summative assessments with technology-enhanced questions directly to the state standards, in the same format your students will encounter on the **KSA** exams.

- Receive instant score feedback and utilize the built-in analytics to provide data-driven instruction, mapped directly to Kentucky standards.
- Easily recognize trends and patterns in student scores and identify knowledge gaps at the student or classroom level.
- From school or home, your students can access their assessments anywhere they access the internet.
- We make sign-in easy: your students can use their Clever, Google, Microsoft or ClassLink accounts for single sign on access!
