# Why ABC?

ABC has been writing and publishing Coursebooks to support student success for over 28 years. Our content covers **100% of the Mississippi College and Career Ready Standards**, by grade-level and subject – including assessments aligned to state blueprints.

- **Standards-alignment:** ABC’s Coursebooks are the most highly standards-aligned content resources available. Our intense focus on standard-content-assessment alignment means teachers can feel confident that students will master all of the standards using their ABC Coursebooks and digital resources!
- **More time for teacher-facilitated, high-level learning:** Mastering content requires learning effective strategies that equal success in the classroom and beyond. ABC Coursebooks are designed to support student efforts to develop lifelong learning skills.
- **Data-driven instruction through Online Assessment** with ABC’s digital platform, CourseWave - included with all Coursebook purchases!

# What's Included With Your Order

## ABC's All-Inclusive Resources: Coursebooks, eBooks, and CourseWave Online Testing

Included in every ABC Coursebook are pretests and posttests where question type and number match state blueprints exactly. These questions are clearly labeled with DOK level and standard for easy concept identification. Our CourseWave Online Testing maps directly to Coursebook content, ensuring a seamless testing experience for students. In CourseWave eBooks, students and teachers can highlight, annotate, bookmark, and more—treat the eBook like a paper book, only better. Whether in the classroom or at home, wherever students access the internet, ABC is there.

## Teacher's Guides:

The ABC Teacher Guide is not only your answer key for all tests and quizzes, but also offers assessments not included in the student Coursebook. With all the same features as our enhanced eBooks, the teacher guide is **FREE** with your purchase.

## Data-driven Instruction Made Easy:

The included pre- and posttests are aligned directly to the **Mississippi College and Career Ready Standards**. Use our robust score reporting tools to instantly identify learning gaps at the student or classroom level, then use the Chart of Standards in your teacher guide to identify more opportunities for practice.

Standard	Chapter	Pretest Questions	Posttest Questions
7.1	2	3, 5, 10, 11, 12, 15, 16, 17, 18, 20, 22, 25, 33	3, 5, 13, 19, 20, 21, 22, 24, 25, 27, 28, 31, 32, 38, 39, 48
7.2	2	4, 14, 21, 28, 30, 31, 34	4, 18, 29
7.3	3	6, 7, 8, 9, 24, 26, 27	7, 11, 14, 15, 16, 17, 33
7.4	3	1, 2, 6	1, 2, 6, 9, 10, 34, 35

eBooks and Seamless  
Online Assessments  
with Every Order!

## Score Improvement Guarantee

Our 100% money back guarantee provides your score improvements -risk free- and is valid for the purchase year under the following conditions:

- The students worked through the coursebooks completely on a 1:1 basis.
- The students did not see score improvement on the state standardized tests over the previous year's score.
- Students did not use American Book Company coursebooks in the classroom in previous year.

## GENETIC DRIFT

**Genetic drift** provides random changes in the occurrence of genes through chance events. These chance events can take place when a few individuals of a population break off from the original group and start their own population, also known as the **founder effect**. This is what happened with Darwin's finches. A few birds might have been blown to the Galapagos Islands during a storm. These "founder" birds remained on the island and reproduced, eventually developing into different species.

Figure 22.4 Bottlenecking

Genetic drift can also occur if a large number of the population is killed because of disease, starvation, change in natural environment or a natural disaster. When this happens to a population, it is called **bottlenecking**. A large population is reduced to a few individuals, and the genes of subsequent generations become very similar. Inbreeding between these few individuals leads to populations that have very few genetic differences. This situation happens with many endangered species. An example is the Florida panther (*Puma concolor coryi*). Many panthers were killed by human hunters or died because of habitat loss. This has created a modern bottleneck. This bottleneck is suspected to be the reason why many Florida panthers have breeding problems.
